DAY SON & HEWITT®

AINTREE™

**SCIENCE FORMULA BREATHING
SUPPLEMENT**

**IMPROVES LUNG TISSUE AND CAPILLARY STRENGTH TO
MAXIMISE LUNG CAPACITY AND PERFORMANCE. STOPS
COUGHS AND NASAL DISCHARGE. SUPPORTS THE
RESPIRATORY DEFENCE SYSTEM.**

LA220F01

30 DAYS SUPPLY FOR AN AVERAGE (500KG) HORSE

AINTREE™

30 DAYS SUPPLY FOR AN ADULT (500KG) CAMEL

SCIENCE FORMULA BREATHING SUPPLEMENT

COMPLEMENTARY FEED SUPPLEMENT, SUITABLE FOR ALL HORSES, PONIES AND CAMELS IRRESPECTIVE OF AGE, BREED OR WORKLOAD, PARTICULARLY THOSE WITH RESPIRATORY DISORDERS, GENERAL COUGHS OR WITHIN A CHALLENGING ENVIRONMENT.

- > **VITAMINS E AND C ARE POWERFUL ANTIOXIDANTS WHICH SUPPORT THE RESPIRATORY DEFENCE SYSTEM.**
- > **BIOAVAILABLE ORGANIC SELENIUM, COPPER, MANGANESE AND ZINC TO AID ANTIOXIDANT DEFENCE SYSTEMS.**
- > **GRAPESEED EXTRACT, RICH IN FLAVENOIDS, MAINTAINS LUNG TISSUE STRENGTH.**
- > **NON-DUSTY FORMULATION TO MAINTAIN RESPIRATORY FUNCTION IN HORSES AND CAMELS AT RISK FROM RESPIRATORY CHALLENGE.**

SCIENTIFICALLY SUPPORTING THE RESPIRATORY DEFENCE SYSTEM

The respiratory system is constantly challenged by environmental factors such as moulds, spores, fungus and dust. In some horses and camels this can trigger an immune response causing an allergic or inflammatory response to the environmental stimulus, which may result in subsequent coughs, nasal discharge and increased resting respiratory rate and possible respiratory disorders. In this situation, it is thought antioxidants play an integral role to support the lungs through this challenge.

Science Formula Breathing Supplement will support the horse and camel's natural antioxidant defences in such times of stress and provides a concentrated source of the antioxidants vitamins E & C, which may be found to be insufficient in the average diet. Potent plant-based flavenoids, which help maintain lung tissue strength, provide further antioxidant support.

Bioavailable sources of key trace minerals, including organic selenium and chelated copper, manganese and zinc are provided as they are required as co-factors for the horse and camel's natural antioxidant enzyme defence system, needed to help eliminate detrimental free radicals.

Maximum benefit will be gained if fed as a preventative measure against challenging environmental conditions.

Note: Maintaining respiratory health also requires management of the environment, i.e. minimal dust and avoiding exposure to moulds, spores and dust from hay or bedding. If in doubt about the health or condition of your horse or camel, you should seek veterinary advice.

EASY FEEDING RULE

'AINTREE' FEED SUPPLEMENTS FROM DAY, SON & HEWITT ARE SPLIT INTO 8 COLOUR CATEGORIES TO HELP EASY AND SAFE FEEDING.

YOU MAY FEED ACROSS THE COLOUR CATEGORIES, I.E. YOU MAY FEED ANY SINGLE SUPPLEMENT FROM EACH COLOUR CATEGORY TOGETHER; BUT DO NOT FEED SUPPLEMENTS WITHIN THE SAME COLOUR CATEGORY.

FEEDING TABLE

FEEDING GUIDE	FEEDING AMOUNT PER DAY	
	SCOOPS	GRAMS
LARGE HORSE/LARGE CAMEL 600kg-750kg+	4 1/2 SCOOPS	45g
HORSE/ADULT CAMEL 400kg-500kg	3 SCOOPS	30g
PONY/YOUNG CAMEL 200kg-250kg	1 1/2 SCOOPS	15g

A SINGLE LEVEL SCOOP DELIVERS APPROXIMATELY 10g.
THE DAILY FEEDING AMOUNT CAN BE SPLIT BETWEEN TWO FEEDS IF DESIRED.

INGREDIENTS: WHEATFEED, VITAMIN C, VITAMIN E 50%, SELENO YEAST, MANGANESE CHELATE OF AMINO ACID HYDRATE, ZINC CHELATE OF AMINO ACID HYDRATE, GRAPESEED EXTRACT, COPPER CHELATE OF AMINO ACID HYDRATE, ANISEED OIL.

PROTEIN - 13.3%W/W OIL - 10.6%W/W ASH - 11.3%W/W FIBRE - 5.6%W/W
VITAMIN E (D - ALPHATOCOPHEROL) 35,000IU/KG
APPROVAL NUMBER GB 193 E 1722

MANUFACTURED IN ENGLAND BY DAY, SON & HEWITT LIMITED, ST GEORGE'S QUAY, LANCASTER LA1 5QJ ENGLAND

THIS PRODUCT DOES NOT CONTAIN INGREDIENTS RECOGNISED TO CONTRAVENE THE JOCKEY CLUB, FEI OR BSI/A RULES REGARDING PROHIBITED SUBSTANCES.

0.9kg e

Store in a cool dry place away from direct light.
